## Clinical Documentation Improvement (CDI) Provider Training Webinars

The Clinical Documentation Improvement (CDI) Team is offering free web-based training designed to enhance your documentation and coding with the upcoming 2023 ICD-10 coding guidelines. After you have completed the training session, you will have the ability to request a chart review in which the CDI Team will send a list of 20 random members, obtain the 2022 date of service charts and review for documentation/coding deficiencies. Once the review of charts is complete, education on opportunities will be discussed with an option to repeat the process in 6 months. If you do not request to have a sample chart review completed, there is no additional action required after the training has been completed. This initiative will also assist your group with documentation and coding accuracy for all contracted lines of business:

- NH Healthy Families;
- Ambetter from NH Healthy Families; and
- Wellcare from NH Healthy Families

**Who should attend:** Clinicians, Coders, etc.

Please **register** for one of the following training options using the below links:

- Nov 9th, 2022, 05:00 PM EST
  - [https://centene.zoom.us/meeting/register/tJckc-ivpzlpEtVeNK\\_t5IntYWYA3jZ7Mist](https://centene.zoom.us/meeting/register/tJckc-ivpzlpEtVeNK_t5IntYWYA3jZ7Mist)
- Nov 10th, 2022, 12:00 PM EST
  - <https://centene.zoom.us/meeting/register/tJcuf-irqD4sH9Acvj-Tu-XzhvfE-Piefe-r>

Our sessions will include:

- 2023 ICD-10-CM updates
- Telehealth Guidelines – Medicare vs Marketplace
- Learn how to avoid common documentation errors
- The Role of Providers in Risk Adjustment
- Overview of Risk Adjustment basics and why the process is so important
