

Supported Care for Mothers and Infants

**I. PLAN OF SAFE CARE (POSC)**  
 This POSC, developed collaboratively with the mother and other involved caregivers, reinforces existing supports and coordinates referrals to new services to help infants and families stay safe and connected when they leave the hospital. The POSC must be given to the mother upon discharge and should go to the infant's primary care provider along with the infant's other medical records. Providers should encourage the mother to share the POSC with those who do and will provide her services and supports. The POSC includes private health information.
