Demographic Updates

Provider Demographic Data:

A critical component of quality care is understanding where to find the right provider. That is why we've partnered with Veda to validate the accuracy of our provider demographic data.

- Data will be validated on a quarterly basis by Veda.
- Practitioners & providers who are confirmed by Veda as no longer at practice locations based on the Veda algorithm will be suppressed from the provider directory.
- If your demographic data has changed, please be sure to notify NHHF within thirty days of the change. NHHF provider demographic updates should be sent to NH_ProviderNetworkOperations@centene.com.
- Please continue to respond to CAQH when they contact you as CAQH is still required to be up to date to complete credentialing and re-credentialing efforts.

Additionally, these updates are covered in your Participating Provider Agreement.
