Ambetter Partners with Teladoc

February 27, 2019

Dear Provider,

Thank you for the ongoing care that you provide to Ambetter from NH Healthy Families members. You are a critical component of our provider network and we want you to be aware of a new opportunity to serve our members.

In 2019, Ambetter from NH Healthy Families will be contracting with Teladoc to provide telehealth access to our members. Teladoc is a nationwide telehealth provider, contracted with more than 3,000 providers in all 50 states. Telehealth services increase patient access to care and can help drive down emergency room visits. This will not replace our recommendation for in-person visits with a member's primary physician.

Many of Ambetter from NH Healthy Families providers are already contracted with Teladoc. If you are not currently contracted with Teladoc, you may want to consider it in 2019. Contracting with Teladoc will enable you to be among the telehealth providers treating Ambetter from NH Healthy Families members remotely, and, if you choose, patients from other plans as well.

If you are interested in learning more about becoming a Teladoc provider, please submit an inquiry to centeneproviders@teladoc.com, and someone from the Teladoc Physician Recruitment team will assist you.

Sincerely,

Ambetter from NH Healthy Families
