

## **Pharmacy Program**

NH Healthy Families is committed to providing appropriate, high quality, and cost effective drug therapy to all NH Healthy Families members. NH Healthy Families works with providers and pharmacists to ensure that medications used to treat a variety of conditions and diseases are covered. NH Healthy Families covers prescription medications and certain over-the-counter (OTC) medications when ordered by a practitioner. The pharmacy program does not cover all medications. Some medications require prior authorization (PA) or have limitations on age, dosage, and maximum quantities.

### **Preferred Drug List**

The NH Healthy Families Preferred Drug List (PDL) is the list of covered drugs. The PDL applies to drugs members can receive at retail pharmacies. The NH Healthy Families PDL is continually evaluated by the NH Healthy Families Pharmacy and Therapeutics (P&T) Committee to promote the appropriate and cost-effective use of medications. The Committee is composed of the NH Healthy Families Medical Director, NH Healthy Families Pharmacy Director, and several New Hampshire physicians, pharmacists, and other healthcare professionals.

### **Pharmacy Benefit Manager**

NH Healthy Families works with Envolve Pharmacy Solutions to process pharmacy claims for prescribed drugs. Some drugs on the NH Healthy Families PDL may require PA, and Envolve Pharmacy Solutions is responsible for administering this process. Envolve Pharmacy Solutions is our Pharmacy Benefit Manager (PBM).

### **Specialty Drugs**

NH Healthy Families contracts with a number of specialty pharmacies, such as AcariaHealth Specialty Pharmacy, to ensure members have adequate access to the specialty drugs they require. Specialty drugs, such as biopharmaceuticals and injectables, may require PA to be approved for payment by NH Healthy Families. PA requirements are programmed specific to the drug.

### **Dispensing Limits**

Drugs may be dispensed up to a maximum of thirty-four (34) day supply for each new prescription or refill. A total of 85% of the day supply must have elapsed before the prescription can be refilled for non-controlled-substance PDL drugs except for ophthalmic drugs.

### **Appropriate Use and Safety Edits**

The health and safety of the member are top priorities for NH Healthy Families. One of the ways we address member safety is through point-of sale (POS) edits at the time a prescription is processed at the pharmacy. These edits are based on FDA recommendations and promote safe and effective medication utilization.

## Prior Authorizations

Some medications listed on the NH Healthy Families PDL may require PA. The information should be submitted by the practitioner to Envolve Pharmacy Solutions on the **Medication Prior Authorization Form**. This form should be **faxed to Envolve Pharmacy Solutions at 1-866-399-0929**. This document can be found on the NH Healthy Families website.

NH Healthy Families will cover the medication if it is determined that:

1. There is a medical reason the member needs the specific medication.
2. Depending on the medication, other medications on the PDL have not worked.

Authorization requests are reviewed by a licensed clinical pharmacist using the criteria established by the NH Healthy Families P&T Committee. If the request is approved, Envolve Pharmacy Solutions notifies the practitioner by fax. If the clinical information provided does not meet the coverage criteria for the requested medication, NH Healthy Families will notify the member and their practitioner of alternatives and provide information regarding the appeal process.

## Step Therapy

Some medications listed on the NH Healthy Families PDL may require specific medications to be used before the member can receive the step therapy medication. If NH Healthy Families has a record that the required medication was tried first the step therapy medications are automatically covered. If NH Healthy Families does not have a record that the required medication was tried, the member's practitioner may be required to provide additional information. If authorization is not granted, NH Healthy Families will notify the member and their practitioner and provide information regarding the appeal process.

## Quantity Limits

NH Healthy Families may limit how much of a certain medication a member can get at one time. If the practitioner feels the member has a medical reason for getting a greater amount, a PA may be requested. If NH Healthy Families does not grant PA we will notify the member and their practitioner and provide information regarding the appeal process.

## Age Limits

Some medications on the NH Healthy Families PDL may have age limits. These are set for certain drugs based on FDA approved labeling and for safety concerns and quality standards of care. Age limits align with current FDA alerts for the appropriate use of pharmaceuticals.

.

## **Non-Preferred**

NH Healthy Families incorporates a Preferred Drug List. A notation of ‘Non-Formulary’ corresponds to drugs identified on the NH Healthy Families PDL indicating the trial and failure of preferred alternatives. The number of preferred drugs that must be tried prior to approval of non-formulary drugs varies by therapeutic drug class. To request the approval of a non-formulary drug please submit rationale via prior authorization request form to Envolve Pharmacy Solutions (fax 1-866-399-0929).

## **Medical Necessity Requests**

If the member requires a medication that does not appear on the PDL, the member’s practitioner can make a medical necessity (MN) request for the medication. It is anticipated that such exceptions will be rare as the PDL medications are appropriate to treat the vast majority of medical conditions.

For a MN request NH Healthy Families requires:

- Documentation of failure of at least two PDL agents within the same therapeutic class (provided two agents exist in the therapeutic category with comparable labeled indications) for the same diagnosis (e.g. migraine, neuropathic pain, etc.); or
- Documented intolerance or contraindication to at least two PDL agents within the same therapeutic class (provided two agents exist in the therapeutic category with comparable labeled indications); or
- Documented clinical history or presentation where the patient is not a candidate for any of the PDL agents for the indication.

These requests are reviewed by a licensed clinical pharmacist using the criteria established by the NH Healthy Families P&T Committee. If the request is approved, Envolve Pharmacy Solutions will notify the practitioner by fax. If the clinical information provided does not meet the coverage criteria for the requested medication, the member and their practitioner will be notified of alternatives and provide information regarding the appeal process.

## **72 Hour Emergency Supply Policy**

State and Federal law require that a pharmacy dispense a 72-hour (3 day) supply of medication to any member awaiting PA determination. The purpose is to avoid interruption of current therapy or delay in the initiation of therapy. A provision of a 72-hour supply does not guarantee that the medication will be approved after a PA review. All participating pharmacies are authorized to provide a 72-hour supply of medication and will be reimbursed for the ingredient cost and dispensing fee of the 72-hour supply of medication, whether or not the PA request is ultimately approved or denied. The pharmacy must call Envolve Pharmacy Solutions at 1-866-862-8615 for a prescription override to submit the 72-hour medication supply for payment.

## **Newly Approved Products**

New Hampshire Healthy Families reviews new drugs for safety and effectiveness before adding them to the PDL. During this period, access to these medications will be considered through the PA review

process. If NH Healthy Families does not grant PA we will notify the member and their practitioner and provide information regarding the appeal process.

## **Over-the-Counter Medications**

NH Healthy Families covers a variety of OTC medications. These medications can be found throughout the NH Healthy Families PDL. NH Healthy Families covers OTC products listed on the PDL if the member has a prescription from a licensed practitioner that meets all the legal requirements for a prescription.

## **Drug Efficacy Study and Implementation (DESI) Drugs**

DESI products and known related drug products are defined as less than effective by the Food and Drug Administration because there is a lack of substantial evidence of effectiveness for all labeling indications and because a compelling justification for their medical need has not been established. DESI products are not covered by NH Healthy Families.

## **Filling a Prescription**

A member can have prescriptions filled at a NH Healthy Families network pharmacy. If the member decides to have a prescription filled at a network pharmacy, they can locate a pharmacy near them by contacting NH Healthy Families Member Services. At the pharmacy, the member will need to provide the pharmacist with the prescription and their NH Healthy Families ID card.

## **Abbreviations**

The following notations and abbreviations may be found throughout the drug listing in the limitations and restrictions column.

|                |  |
|----------------|--|
| DS/DU:         | Day Supply per Dosage Unit                             |
| Max Days Sply: | Maximum Day Supply                                     |
| Max Fills:     | Maximum Fills (per a designated time period)           |
| Max Qty:       | Maximum Quantity (per claim or designated time period) |
| Min DS:        | Minimum Day Supply                                     |
| PA:            | Prior Authorization                                    |
| Pkg Size:      | Package Size   |
