Health Care Transition: From Idea to Implementation

June 22, 2021 · 12:00-1:15 pm

Presented by:

Margaret McManus, MHS and
Patience White, MD, MA, FAAP, MACP
from Got Transition™

Health care transition from a pediatric to an adult model of care happens for all pediatric patients, but with variable approaches and capacity to support transition from practice to practice. Got Transition™ offers a comprehensive array of tools to support health care transition. Join this discussion to learn why addressing transition is important; and more importantly, what tools are available to support your efforts.
