

Amendment

Involuntary Emergency Admission (IEA)

Pre-Admission Documentation Requirement

July 17, 2026

This notice amends our July 9, 2026, communication regarding required pre-admission documentation for NH Healthy Families members admitted to New Hampshire Hospital (NHH), Designated Receiving Facilities (DRFs), or another State-determined IMD for mental illness.

Effective immediately, NH Healthy Families is pausing that documentation expectation and its August 15, 2026, implementation date. The requirements described in the July 9, 2026, notice, including Form NHJB-2826-D or equivalent State-required IEA documentation, are suspended until further notice. Please continue your current admission-notification process.

We will provide advance notice if there is any revised requirement or implementation date takes effect. Please retain the original notice for future reference.
