

Pharmacy Program

NH Healthy Families is committed to providing appropriate, high quality, and cost effective drug therapy to all NH Healthy Families members. NH Healthy Families works with providers and pharmacists to ensure that medications used to treat a variety of conditions and diseases are covered. NH Healthy Families covers prescription medications and certain over-the-counter (OTC) medications when ordered by a prescriber. The pharmacy program does not cover all medications. Some medications require prior authorization (PA) or have limitations on age, dosage, and maximum quantities.

Preferred Drug List

The NH Healthy Families Preferred Drug List (PDL) is the list of covered drugs. The PDL applies to drugs members can receive at retail pharmacies. The NH Healthy Families PDL is continually evaluated by the Pharmacy and Therapeutics (P&T) Committee to promote the appropriate and cost-effective use of medications. The Committee is composed of the physicians, pharmacists, and other healthcare professionals.

Pharmacy Benefit Manager

NH Healthy Families works with a Pharmacy Benefit Manager (PBM) to process pharmacy claims for prescribed drugs and maintain the pharmacy network. The Pharmacy Benefit Manager ensures claims are processed in line with the NH Healthy Families preferred drug list.

Specialty Drugs

NH Healthy Families contracts with a number of specialty pharmacies, such as AcariaHealth Specialty Pharmacy, to ensure members have adequate access to the specialty drugs they require. Specialty drugs, such as biopharmaceuticals and injectables, may require PA to be approved for payment by NH Healthy Families. PA requirements are programmed specific to the drug.

Dispensing Limits

Drugs may be dispensed up to a maximum of thirty-four (34) day supply for each new prescription or refill. A total of 85% of the day supply must have elapsed before the prescription can be refilled for PDL drugs (excluding ophthalmic drugs which are set at 70%).

Appropriate Use and Safety Edits

The health and safety of the member are top priorities for NH Healthy Families. One of the ways we address member safety is through point-of sale (POS) edits at the time a prescription is processed at the pharmacy. These edits are based on FDA recommendations and promote safe and effective medication utilization.

Prior Authorizations

Some medications listed on the NH Healthy Families PDL may require PA. The information should be submitted by the prescriber to the Pharmacy Services team on the **Medication Prior Authorization Form**. This form should be **faxed to the Pharmacy Services team at 833-645-2738**. This document can be found on the NH Healthy Families website.

NH Healthy Families will cover the medication if it is determined that:

1. There is a medical reason the member needs the specific medication.
2. Depending on the medication, other medications on the PDL have not worked.

Authorization requests are reviewed by a licensed clinical pharmacist using the criteria established by the P&T Committee. If the request is approved, the Pharmacy Services team notifies the prescriber by fax. If the clinical information provided does not meet the coverage criteria for the requested medication, NH Healthy

Families will notify the member and their prescriber of alternatives and provide information regarding the appeal process.

Quantity Limits

NH Healthy Families may limit how much of a certain medication a member can get at one time. If the prescriber feels the member has a medical reason for getting a greater amount, a PA may be requested. If NH Healthy Families does not grant PA we will notify the member and their prescriber and provide information regarding the appeal process.

Age Limits

Some medications on the NH Healthy Families PDL may have age limits. These are set for certain drugs based on FDA approved labeling and for safety concerns and quality standards of care. Age limits align with current FDA alerts for the appropriate use of pharmaceuticals.

Non-Preferred

NH Healthy Families incorporates a Preferred Drug List. A notation of non-preferred corresponds to drugs identified on the NH Healthy Families PDL indicating the trial and failure of preferred alternatives. The number of preferred drugs that must be tried prior to approval of non-preferred drugs varies by therapeutic drug class. To request the approval of a non-preferred drug please submit rationale via prior authorization request form to the Pharmacy Services team at fax number 833-645-2738.

Medical Necessity Requests

If the member requires a medication that does not appear on the PDL, the member's prescriber can make a medical necessity (MN) request for the medication. It is anticipated that such exceptions will be rare as the PDL medications are appropriate to treat the vast majority of medical conditions.

For a MN request NH Healthy Families requires:

- Documentation of failure of PDL agent(s) within the same therapeutic class (provided agents exist in the therapeutic category with comparable labeled indications) for the same diagnosis (e.g. migraine, neuropathic pain, etc.); or
- Documented intolerance or contraindication to PDL agent(s) within the same therapeutic class (provided agents exist in the therapeutic category with comparable labeled indications); or
- Documented clinical history or presentation where the patient is not a candidate for PDL agents for the indication.

These requests are reviewed by a licensed clinical pharmacist using the criteria established by the P&T Committee. If the request is approved, the Pharmacy Services team will notify the prescriber by fax. If the clinical information provided does not meet the coverage criteria for the requested medication, the member and their prescriber will be notified of alternatives and provide information regarding the appeal process.

72-Hour Emergency Supply Policy

State and Federal law require that a pharmacy dispense at least a 72-hour (3 day) supply of medication to any member awaiting PA determination. The purpose is to avoid interruption of current therapy or delay in the initiation of therapy. A provision of a 72-hour supply does not guarantee that the medication will be approved after a PA review. All participating pharmacies are authorized to provide a 72-hour supply of medication and will be reimbursed for the ingredient cost and dispensing fee of the 72-hour supply of medication, whether or not the PA request is ultimately approved or denied. The pharmacy must call the Pharmacy Help Desk at the number located on the back of your member ID card for an override.

Newly Approved Products

NH Healthy Families reviews new drugs for safety and effectiveness before adding them to the PDL. During this period, access to these medications will be considered through the PA review process. If NH Healthy Families does not grant PA we will notify the member and their prescriber and provide information regarding the appeal process.

Over-the-Counter Medications

NH Healthy Families covers some OTC medications. These medications can be found throughout the NH Healthy Families PDL. NH Healthy Families covers OTC products listed on the PDL if the member has a prescription from a licensed prescriber that meets all the legal requirements for a prescription.

CMS Labeler Requirements

NH Healthy Families requires manufacturers to enter into the federal rebate agreement program as outlined in the Omnibus Budget Reconciliation Act of 1990 (OBRA 90) in order to be eligible for coverage under the NH Healthy Families preferred drug list. Manufacturers and products which do not engage in this rebate program will be ineligible for coverage under the preferred drug list.

Drug Efficacy Study and Implementation (DESI) Drugs

DESI products and known related drug products are defined as less than effective by the Food and Drug Administration because there is a lack of substantial evidence of effectiveness for all labeling indications and because a compelling justification for their medical need has not been established. DESI products are not covered by NH Healthy Families.

Filling a Prescription

A member can have prescriptions filled at a NH Healthy Families network pharmacy. If the member decides to have a prescription filled at a network pharmacy, they can locate a pharmacy near them by contacting NH Healthy Families Member Services. At the pharmacy, the member will need to provide the pharmacist with the prescription and their NH Healthy Families ID card.

Step Therapy

Some medications listed on the NH Healthy Families' PDL may require specific medications to be used before the member can receive the step therapy medication. If NH Healthy Families has a record that the required medication was tried first the step therapy medications are automatically covered. If NH Healthy Families does not have a record that the required medication was tried, the member's prescriber may be required to provide additional information. If authorization is not granted, NH Healthy Families will notify the member and their prescriber and provide information regarding the appeal process.
