- Support Metabolic Screening for Children Prescribed Antipsychotics -

\$50* Amazon Gift Card Raffle for Pediatric Members Completing Both Screenings

Help Improve Health Outcomes – and Reward Families for Taking Action!

We're launching a **Metabolic Screening Raffle** to increase compliance with annual cholesterol and blood sugar testing for children prescribed **antipsychotic medications**. Members who **complete both screenings between October and December** will be entered to win a **\$50* Amazon gift card!**

About the APM Measure:

HEDIS APM – Metabolic Monitoring for Children and Adolescents on Antipsychotics

- Ages 1–17
- Prescribed antipsychotic medications
- Required: **Annual cholesterol and blood sugar (glucose or HbA1c) testing**

Raffle Program Details:

- **Eligibility:** Pediatric Medicaid members prescribed antipsychotics
- **Action Needed:** Complete **both cholesterol and blood sugar screenings**
- **Incentive:** Members will be **automatically entered** into a **\$50* Amazon gift card raffle**
- **Goal:** Promote preventive care and reduce long-term health risks

Continued, next page.

*Some restrictions and limitations apply. Each member can earn up to \$250 for certain cash and non-cash goods and services through June 30 each year. Rewards for preventive screenings and services do not apply to the \$250 maximum.

How You Can Help:

- Order labs during upcoming visits
- Use standing orders to prompt compliance
- Educate caregivers on the importance of metabolic screening

Need Support?

Our Quality and Provider Engagement teams can assist with:

- Member eligibility lists
- Guidance on codes and documentation
- Support with scheduling or care coordination
