You're working to treat opioid misuse. Let us help.

Register today for a FREE training to treat Opioid Use Disorder (OUD) and qualify for the waiver to prescribe buprenorphine.

Buprenorphine is the first at-home therapy to treat OUD and offers great potential for expanding treatment.* Buprenorphine also has been proven to be a clinically effective therapy for OUD in populations including pregnant women. It's an essential tool for you to be even better equipped to treat OUD in your community.
